

## **Wisium extends Polish footprint through ADM's Premix acquisition**

**09/06/2021**

ADM (NYSE:ADM), a global leader in human and animal nutrition, is pleased to announce the acquisition of part of BNA Nutrition Animale sp. z o.o. - Mixscience Polska, specifically its commercial team and premix client list in Poland.

This acquisition will be a step forward in Wisium's expansion in Poland and central Europe, the global brand for the premix and services business of ADM.

Over the last few years, Wisium has been driving a rapid international expansion strengthening its position as a global premix and services player. Focusing on innovation, quality and a high service level, Wisium is offering a wide range of tailor-made nutrition solutions to the market, taking into account the evolving market needs and challenges.

"Expanding Wisium's offer participates in developing our global network of customizable nutrition solutions that give producers an edge in solving feed production challenges," says François Fernandez, vice president, Wisium Premix and Services. "Our outstanding range of premix solutions and high-end services, combined with ADM's expertise, make us an ideal partner for producers".

The Polish market is one of the biggest market for animal feed production in Europe with a 22 million tons annual demand. The feed sector covers three main species : poultry, swine and ruminant and it has shown a significant increase in the last few years. The broiler meat production is a very dynamic market and is driving the overall growth in the sector, with significant export figures. The high production standards and performances place Poland as a key player on the European market and is showing a good potential for business development in central Europe for Wisium, positioned as a leader in Western Europe.

"This is an exciting opportunity for us to expand our offering by providing new customers with a wide range of innovative and customized premix, pre-starter feed, minerals, specialties, alongside ADM's extensive product portfolio and global supply chain network. We're excited by this opportunity, and look forward to continuing to meet our customer's expectations" said Katarzyna Baginska, Managing Director for Wisium in Poland.
